Claim 33. The system of claim 32 further comprising:

(q)   means for linking said guest client to said audio visual presentation when said guest client clicks on said URL link contained in said e-mail from said client system.

Claim 34. The system of claim 33 further comprising:

(q)   means for notifying said creator client that said guest client with said unique URL has viewed said audio visual presentation.

REMARKS

Applicant has replaced the paragraph claiming priority to the provisional application to make the claim of priority absolutely clear.

Claim 16 has been amended to correct the dependency of the claim. Claim 16 depends on the method of claim 15, not claim 11. Claim 11 does not contain reference to any guest clients whereas claim 15 does, so any reference to a guest client must depend on claim 15.

Further, the claims have been amended to add claims 19 – 36 claiming the system corresponding to the method disclosed in the method claims. Each system claim has a corresponding method claim and all of the "means for" listed in the system claims are disclosed in the original specification. Therefore Applicants believe that no new matter is added by the addition of these claims.

If there are any questions, please contact applicants' attorney at the telephone number indicated below so additional changes may be made as required.

Attached hereto is a marked-up version of the changes made to the specification and claim 16 by the current Preliminary Amendment. The attached page is captioned **"Version with markings to show changes made."**

Respectfully,
Glenn Paul, Walter Krieg

Charles Manero
Attorney for Applicant

"VERSION WITH MARKINGS TO SHOW CHANGES MADE"

Applicant wishes to adopt the method of square brackets and underlining to show the changes made to claim 16. Text contained in square brackets is deleted and underlined text is added.

IN THE SPECIFICATION

Please replace the paragraph starting at line 6 of page 1 of the specification with the following rewritten paragraph:

This application claims the priority of [is a non-provisional application based on] U.S. provisional application 60/198098 entitled "Internet Presentation System" filed with the USPTO on April 18, 2000, the entire contents and substance of which are hereby incorporated in total by reference.

IN THE CLAIMS

Please amend claim 16 as follows:

Claim 16 (amended) The method of claim 15 [11] comprising the additional steps of

(o)   generating a unique URL by said client system for each guest client [of claim 15]; and

(p)   sending an e-mail to said guest client notifying said guest client that said audio visual presentation may be viewed, said e-mail containing said unique URL in the form of a link from said guest client to said audio visual presentation.
